

Why do I get an "Access Denied" message when I try to go to my course?

Courses on Blackboard do not typically allow "guests" to view the materials. When you receive this error, the system does not recognize you as an enrolled member of a class. You are able to confirm this from your "Home Page" when you log into Blackboard: on the right side of your Home Page is a list of the courses that you are enrolled in. If the course is not listed, then you need to enroll. From the "Course Catalog" listing of courses, navigate to your subject area and locate the listing for your course. BEFORE you select the title of your course, on the right side of the screen will be a button labeled "Enroll". You must select this to enroll yourself in a course. If the Enroll button is not available, ask your teacher if there is a designated time limit for enrollment.
