

Table 1

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
Caro Perez-Heydrich	cperezheydrich@meredith.edu	Biological Sciences: Public Health	Intro to Public Health; Biostatistics; Epidemiology; Research Development	One Health; Wildlife Diseases; Ecology of Infectious Diseases; Public Health; Data Analysis
David McLennan	dbmclennan@meredith.edu	Political Science	American Government, American Public Policy, Campaigns and Elections, Women in Politics	Women in politics--appointed and elected offices, political advertising, public opinion, and media and politics.
Candalyn Rade	cbrade@meredith.edu	Psychology	Forensic Psych, Social Psych, Personality Psych, Community Psych, Research Methods 1&2 (PSY301,302), Advanced Methods & Stats (graduate PSYG601)	Intersection of Psych & CJ system - community resources/programs for formerly incarcerated people & families, barriers to community reentry, stigma & discrimination, employment with a criminal history
Jenna McChesney	jemcchesney@meredith.edu	Psychology (I-O Concentration)	Test & Measures, Intro to IO Psychology, Job Analysis and Performance Appraisal, Selection and Training, International Consulting in I-O Psychology	Employer perceptions of stigmatized job applicants (e.g., those with a criminal record, anxiety, and depression). Also look at the use of technology in the contexts of recruitment, selection, and career development. For example, what do applicants think of employers who used gamified assessments? How does new technology impact the way employers perceive job applicants?
Bing Yu	yubing@meredith.edu	Business	Corporate Finance, Investment, Financial Management, Financial Literacy	Gender Diversity and Financial performance, law, culture and finance, impact investing, corporate governance, and international corporate finance
Whitney Manzo	wrmanzo@meredith.edu	Political Science	American Public Policy, Law and Society, Civil Liberties, Civil Rights Law, Moot Court,	Women in politics, gender and sexuality public policy, public opinion (especially on issues related to gender), voting, electoral law

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
			Research Design and Methods	
Heather Bower	bowerhea@meredith.edu	Education	Curriculum and Assessment, Classroom Management, Adolescent Literacy, Teaching and Learning, Social Foundations of Education, Internship Supervision	Classroom and Behavior Management; Assessment; Curriculum Development; Family Engagement
Courtney George	georgeco@meredith.edu	Education	Language Minorities in Public Schools, Social Foundations of Education, Internship Supervision, Grammar and Linguistics for ESL Teachers	ESL and Bilingual Education, Sheltered Instruction, Immigration and Education, Critical Multicultural Education, Beginning Teacher Support.
Sasha Ormond	ormonda@meredith.edu	Chemistry	General, Organic, Analytical, Polymer chemistry	Synthesis of molecules (dyes, antibiotics, DSSCs etc) and their analysis, chemical education outreach, 3D printing
Megan Serr	meserr@meredith.edu	Biology	Ecology, Vertebrate Physiology, Evolution, Environmental, Anatomy and Physiology, Intro Biology	Invasive species, herpetology, wildlife disease, animal behavior, gene drives, eDNA, hormones and reproduction, conservation, science communication
Phillip Andreae	pvandreae@meredith.edu	Math & CS: Math	Statistics, Calculus, Reasoning, Geometry, Math & Democracy	Geometry & topology; Statistics and data; Applied math & modeling in: politics and government, biology; Math education, outreach, and math/data literacy
Heather Sanderson	hlsanderson@meredith.edu	NHHP	Functional Human Movement, Sport Management, Exercise Leadership, Exercise Prescription, Strength and Conditioning	Physical activity on cognition, physical and mental health. Exercise is Medicine initiatives. Health and Physical Literacy. Equity, Diversity and Inclusion in kinesiology.
Lanae Hood	klball@meredith.edu	NHHP	Principles of Food & Preparation, Lifecycle Nutrition, Community Food Security, Nutrition	Food security & hunger, college hunger, community-based participatory research, food access, local food systems, food hubs & farmers' markets, federal food assistance

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
			Education, Program Planning & Evaluation, Historic Food Preservation	programs, nutrition incentive programs like Double Up Food Bucks
Joseph Mazzola	jjmazzola@meredith.edu	Psychology (I-O Concentration)	Advanced Statistical Methods & Research, Data Analytics, Careers & Professional Development in I-O Psychology, International Consulting in I-O Psychology, Organizational Psychology	Occupational health, workplace stress management, healthy behaviors in the workplace, work-family balance, qualitative and mixed methods.
Shannon Grimes	GrimesSh@meredith.edu	Religion/History	World religions; biblical studies; mythology; early Christianity; environmental ethics; philosophy.	Religions/philosophies of the Greco-Roman world, including early Christianity. Esoteric traditions (alchemy, astrology, magic, etc.). Nature spirituality and environmental philosophy. Interfaith relations.
Gwynn Morris	MorrisSG@meredith.edu	Psychology	Intro to PSYchology, Child & Adolescent Psychology, PSY of Aging, Lifespan Developmental PSY, Cognitive PSY	Memory Development across the lifespan, Autobiographical memory, Narrative coherence in memory,
Laura Prestwood	leprestwood@meredith.edu	Interior Design	Interior Design I, History of Architecture, Interiors and Furnishings, 20th Century Architecture and Design, Professional Practice in Interior Design, Lighting for Interior Design, Interior Design IV: Capstone; Gender Studies, Architectural Lighting	Placemaking; Architectural Design of Domestic Violence Shelters; Embodiment; Human Health and Behavior relative to lighting and the built environment; Architectural Lighting Design; Qualitative Research,

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
Monica McKinney	mckinneym@meredith.edu	Education	Schools & Social Change, Educational Research, Leadership in Schools & Society, Teaching & Integrating Arts & Social Studies,	Classroom/Campus spaces and places, qualitative research, teacher action research,
Andrea McPherson	avmcperson@meredith.edu	Psychology	Intro to Psychology, Abnormal Psychology, Sport Psychology, Theories of Personality, Theories of Counseling	Mental Health, Stress, Childhood disorders, School Psychology, Sport Psychology
Kari Alberque	kaalberque@meredith.edu	Social Work	Social Welfare Policy, Macro Social Work, Social Work Research, Human Development in the Social Environment HDSE Birth thru Adolescents, HDSE Adulthood	Inclusive Education, Inclusion of Students with Extensive and Pervasive Support Needs (EPSN), Systems Changes and Inclusive Education, Self Determination and Students with EPSN, Early Intervention Policy and Practices, Parent Advocacy in Special Education, Perspectives of Parents of Children with Disabilities
Lisa Delise	ladelise@meredith.edu	Business	Management & Organizational Behavior, Human Resource Management, Training & Development, HR Consulting	Teams (information sharing, communication, conflict management, training), Effectiveness of experiential exercises in classrooms, Neurodiversity and disabilities at work and in team settings
Nancy Johnson	nlgjohnson@meredith.edu	Business	Financial , Managerial and Intermediate Accounting, Audit, Accounting Processes and Systems.	SOT. Student access of online resources vs performance outcomes, Curriculum and assessment. Learner perceptions of capabilities vs performance outcomes in entry level accounting.
Kevin Hunt	kevinh@meredith.edu	World Languages and Cultures	Beginning and Intermediate Spanish; Spanish and Latin American Film; Spanish Phonetics and Phonology; Identities of Latin America; Basic Concepts of Interpreting	Interpreting and Translation; Fermentation, beer and alcohol culture in Latin America and the United States; Indigenous literary production in Mexico; Dialectal variations of Spanish

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
Jeff Langenderfer	jefflang@meredith.edu	Business	Consumer Behavior, Principles of Marketing, Managing Toward Happiness, Marketing Strategy	Consumer Implications of Supreme Court Decisions, Privacy, Effects of Technology on Consumers, Scams and Swindles
Michael Altman	maaltman@meredith.edu	Business - Hospitality and Tourism	Introduction to Hospitality and Tourism, Hotel Management, Restaurant Management, Principles of Marketing, Planning Special Events, Strategic Issues in Hospitality and Tourism, Leadership and Global Communication and Business and Society	Using social capital theory to better understand the phenomenal growth of food halls; Sustainable travel and tourism; Design thinking; The circular economy; Inclusivity and accessibility in travel and tourism
Megan Martin	mwmartin@meredith.edu	Business	Business Analytics and Management Information Systems	Applied Optimization, Quality and Process Improvement, MultiCriteria Decision Making Using Integer Linear Programming and Mixed Integer Linear Programming, Job Shop Scheduling, MultiObjective Optimization
Stephanie Little	littlest@meredith.edu	NHHP	Motor Learning and Development; Adapted, Elementary, and Secondary Physical Education Methods; Health Education Methods; Foundations in Physical Education, Sport, and Fitness; Methods of Healthful Living Education; Folk and Square Dancing	Motor Skill Development, Integrating Physical Activity in School Settings, National Standards and Grade-Level Outcomes for Physical Education, Preservice Teacher Experiences
Dan Fountain	fountain@meredith.edu	History, Political Science & International Studies	US History to 1877; Colonial America; Civil War & Reconstruction; Human	Southern History; History of Slavery & Race; NC History; Public History; Meredith College History; US history

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
			Trafficking/Slavery; Public History; Methods of Historical Research; NC History; Senior Research	
Bob Reid	reidb@meredith.edu	Biological Sciences	Genetics Lecture and Laboratory, Techniques in Tissue Culture, Biology and Society, Applied Medical Ethics	Tissue culture of Tylosema for crop improvement. Tylosema is a tropical legume with nutrition equal to that of soybeans. Computer analyses of gene base sequences.
Anne York	yorka@meredith.edu	Economics - Business School	Principles of Microeconomics; Principles of Macroeconomics, Intermediate Macroeconomics; Health Economics and Policy, Gender and the Economy	Issues related to gender in the labor market (work/life balance, leave policies, benefits); Curriculum in economics
Pamela Norcross	plnorcross@meredith.edu	HES- Child Development	intro to child development; infant development; all families courses; resaerch; internship; honors thesis; child life; death, dying & bereavement	effects of maternal depression on early parenting and infant outcomes; health research, sepcifically psychosocial and developmental aspects of hospitalization on children's development; children with developmental disabilities.
Brian Routh	tbrouth@meredith.edu	Business/Accounting	Financial Accounting, Managerial Accounting, Cost Accounting, Financial Literacy, MBA Managerial Accounting, Financial Statement Analysis, Intermediate Accounting, Advanced Cost Accounting, Data Analytics in Accounting, Individual Income Taxation	Revenue Management; Banking Regulation; ethical decision making; Kolb's Experiential Learning Model in the accounting classroom; knowledge retention; preferred learning styles and their affects on learning outcomes/performance; Activity-Based Costing versus Job-Costing in Educational Institutions; Financial Literacy of today's college students; EV manufacturing; AI as an educational tool versus a way to cheat

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
Lisa Monahan	Lamonahan@meredith.edu	Business (Marketing)	Principles of Marketing, Advertising, Social Media Marketing	Branding (brand hate, brand polarization, brand trust/credibility), advertising (strategy and visual cues). Experimental design is my primary methodology.
Angela Robbins	aprobins@meredith.edu	HIS/POL/IS	US History since 1876, US women's history, global women's history, US since 1945, World in 20th century, Senior Research	women's rights and activism, gender issues, feminism, southern US, Meredith College history
Anthony Reid	asreid@meredith.edu	Social Work/Psychology	SWK 200/PSY 201 Human Diversity and Social Justice, SWK 325 Intro to Substance Use Disorders, SWK 480 Prep for Social Work Field Practicum, SWK 490 Social Work Field Practicum, SWK 491 SWK Field Practicum Seminar, SWK 220 Human Behavior Birth through Adolescence, SWK 225 Human Behavior Adult through Death	Addiction Treatment and Substance Use Disorders, Trauma Focused Cognitive Behavioral Therapy, LGBTQIA+ Resource Development, Mental Health Support, Ethical and Diverse Treatment Methods, Crisis Intervention and Assessment Services
Zach Linge	zlinge@meredith.edu	English	ENG 297: Disability in Lit; ENG 111: Principles of Writing; ENG 200: Critical Reading & Writing	Disability in Literature; Mental Illness & Authors/Artists; Contemporary & Modern Poetry; Alcoholism & Addiction; Witchcraft History; Literature of Spiritual Experiences; Publishing; Writing for Publication; Contemporary Long Fiction & the Short Story; Affect, Queer, & New Media Theory; Deconstruction; Critical Theory; Writing Across Genres; Interdisciplinary Studies; Research Methodologies; Copywriting; Proofreading; Editing; Research Presentation

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
Jason Andrus	andrusja@meredith.edu	Biology	Principles of Biology, Principles of Biology Lab, Pathways to Careers in Science, Research Development, Immunology, Microbiology, Microbiology Lab, Molecular Biology and Biotechnology	Probiotics, Microbial Products and Their Applications, Microbial Populations in the Environment, Compounds to Control Microbial Growth, Microbial Pathogenesis, STEM Pedagogy
Jayme Ringleb	jkringleb@meredith.edu	English	Critical Reading and Writing, Introduction to Creative Writing, Principles of Writing, Queer Literature, Writing Poetry	Contemporary poetry; devotional, odic, and spiritual verse; ecopoetics; elegy; the gaze (female, male, oppositional, postcolonial, white); film studies; gender, sexuality, and power in film; Italian literature; love poetry; media literacy; multimodal texts; queer literature; queer poetics; queer theory; poetic forms; poetic genres; poetics; rhetoric
Darren Masier	djmasier@meredith.edu	Business	Human Resources, Staffing, Compensation & Benefits, Employee Relations, Business & Society, Management & Org Behavior, Strategic Rewards Systems, Developing Human Capital, Legal & Ethical Employment	Human Resources, Management, Leadership, Business, Organizational Behavior
Betty-Shannon Prevatt	bprevatt@meredith.edu	Psychology	Intro to Psych, Gender Roles, Health Psych, Neuropsych, and Reproductive Mental Health	Reproductive mental health (infertility and perinatal); access to healthcare/social determinants of health, scholarship of teaching and learning, decolonizing the classroom, mixed methods
Kevin Weng	kweng@meredith.edu	Sociology/Criminology	Principles of Soc, Deviance and Society, Race and Ethnicity, Social Research	Sexual violence, sexual victimization, gender and violence, life course perspective, fear of crime, feminist theories, deviance

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
			Principles, Juvenile Delinquency	
Andrea Carter	aacarter@meredith.edu	Chemistry	General Chemistry, Thermodynamics & Kinetics, Atomic & Molecular Structure (aka Quantum Mechanics), Protein Chemistry, Pathways to Careers in Science, Introduction to Research	protein structure and function, computational biochemistry/biophysics, bomb calorimetry to determine Calories in foods, chemical education outreach
Cammey Cole Manning	manningc@meredith.edu	Mathematics and Computer Science	Spreadsheets, Spreadsheets II, Introduction to MATLAB, Mathematics Seminar, Differential Equations, Numerical Analysis, Mathematical Modeling	Developing and implementing technical concepts from linear and nonlinear dynamics and numerical analysis to study and improve the modeling of physiological and biological systems. Most recent work involves differentiated antibiotic dosing, depending on physiological characteristics.
Jennifer Burgess	jcburgess@meredith.edu	English	Principles of Writing, Critical Reading and Writing, Professional Writing, STEM Writing, Publishing and Editing, Career Prep for English Majors, Introduction to Digital Media	
Jessica Thorpe	jlthorpe@meredith.edu	Chemistry	General Chemistry, Organic and Analytical Chemistry labs	Identification and quantification of THC analogs in commercial hemp products
Kelly Morris Roberts	robertsk@meredith.edu	English	Young Adult Literature, Activism in Literature, Advanced Grammar, Methods of Teaching English, Banned Books, Principles of Writing,	written reflection, autobiographical reflection, portfolio assessment of writing, ethnographic research, writing pedagogy and praxis, qualitative and mixed-methods research, young adult literature, anti-racist YAL (includes contemporary children's lit)
Mark O'Dekirk	odekirkm@meredith.edu	Psychology	Intro to Psychology, Research Methods 1 & 2, Perception, Cognition,	Perceptual Illusions, Depth Perception, Visual Selective Attention, Flashbulb Memory, False Memory

Name	Email	Department	Courses Taught	Description of Research Interests/Topics
			Psych of Exceptional Individuals	
Susan Gardner	spgardner@meredith.edu	Biology	Your Whole Body, Microbiology, Research Development	Antibiotic resistance, antibiotic resistance in wildlife, antimicrobial compound discovery, ecology of bacteria in natural and engineered environments
Caro Perez-Heydrich	cperezheydrich@meredith.edu	Biological Sciences: Public Health	Intro to Public Health; Biostatistics; Epidemiology; Research Development	One Health; Wildlife Diseases; Ecology of Infectious Diseases; Public Health; Data Analysis
David McLennan	dbmclennan@meredith.edu	Political Science	American Government, American Public Policy, Campaigns and Elections, Women in Politics	Women in politics--appointed and elected offices, political advertising, public opinion, and media and politics.
Candalyn Rade	cbrade@meredith.edu	Psychology	Forensic Psych, Social Psych, Personality Psych, Community Psych, Research Methods 1&2 (PSY301,302), Advanced Methods & Stats (graduate PSYG601)	Intersection of Psych & CJ system - community resources/programs for formerly incarcerated people & families, barriers to community reentry, stigma & discrimination, employment with a criminal history
Jenna McChesney	jemcchesney@meredith.edu	Psychology (I-O Concentration)	Test & Measures, Intro to IO Psychology, Job Analysis and Performance Appraisal, Selection and Training, International Consulting in I-O Psychology	Employer perceptions of stigmatized job applicants (e.g., those with a criminal record, anxiety, and depression). Also look at the use of technology in the contexts of recruitment, selection, and career development. For example, what do applicants think of employers who used gamified assessments? How does new technology impact the way employers perceive job applicants?
